RFP No.: 39/2026 | Ref. Pro. (Log.) 256/2026

Dear Sir,

Technical Proposal for Appointment of an Independent Audit Firm to Conduct a Special Audit and Compliance Review

Reference is made to your esteemed organisation's circular RFP No. 39/2026, Ref. Pro. (Log.) 256/2026 dated 28 July 2026 concerning appointment of an independent audit firm to conduct a special audit and compliance review. We have prepared both technical and financial proposal for the aforesaid service in accordance with Section 1: Instruction to Consultants (ITC) and the Terms of References as given in Section 6 of Standard Request for Proposal (SRFP) and are submitting herewith the technical proposal as requested by your organisation. The financial proposal is submitted in a separate envelop. Should you require any further clarification or information, please do let us know.

ACNABIN, Chartered Accountants along with Ahmed Sheikh Roy & Co., Chartered Accountants has formed a Joint Venture named, Joint Venture of Firms for Conducting Special Audit and Compliance Review of BDRCS to combine specialized skills, scaling up capacity and ensure high quality services as requested by your long serving premier organisation in the field of humanitarian support. A copy of Joint Venture Agreement has been attached to this letter.

We are open to have discussion with your esteemed organisation for any issues concerning the proposal. **We would be grateful if we have an opportunity to present our proposal before you and concerned persons of your organisation.** With the assurance of the best of our services and assistance, we look forward to working with you.

Thank you!

Yours sincerely,

Muhammad Aminul Hoque FCA
Team Leader

RFP No.: 39/2026 | Ref. Pro. (Log.) 256/2026

Dear Sir,

Appointment of an Independent Audit Firm to Conduct a Special Audit and Compliance Review

We, the undersigned, offer to provide services as an Independent Audit Firm to Conduct a Special Audit and Compliance Review" in accordance with the SRFP dated 28 July 2026 and all issued amendments or clarifications. We confirm that:

- we meet all eligibility requirements and are not debarred, blacklisted, suspended or otherwise ineligible;
- we are duly registered with ICAB and possess all required statutory registrations;
- we have no undisclosed conflict of interest in relation to this assignment or BDRCS;
- we did not prepare the TOR for this assignment;
- the Technical Proposal contains no financial or cost information;
- all information in this Proposal is accurate, complete and verifiable;
- the Proposal shall remain valid for 90 calendar days from the submission deadline; and
- we accept all terms and conditions of this SRFP.

We would be grateful if we have an opportunity to present our proposal before you and concerned persons of your organisation.

3.0 Form TP3: Approach, Methodology and Work Plan

3.1 Executive Summary

3.1.1 Overview

ACNABIN, Chartered Accountants along with Ahmed Sheikh Roy & Co., Chartered Accountants has formed a Joint Venture named, Joint Venture of Firms for Conducting Special Audit and Compliance Review of BDRCS to combine specialized skills, scaling up capacity and ensure high quality services as requested by your long serving premier organisation in the field of humanitarian support. A copy of Joint Venture Agreement has been attached to this letter.

The Joint Venture is pleased to submit this Technical Proposal in response to the Bangladesh Red Crescent Society's (BDRCS) Standard Request for Proposal (RFP No. 39/2026) for the Appointment of an Independent Audit Firm to Conduct a Special Audit and Compliance Review to BDRCS. **We would be grateful if we have an opportunity to present our proposal before you and concerned persons of your organisation.**

We have thoroughly reviewed the Terms of Reference (ToR) and fully understand the critical nature of this assignment. BDRCS, as Bangladesh's premier humanitarian organization, operates with significant donor funding, public trust, and a broad mandate spanning national headquarters operations, 64 Districts and 4 City Corporation Units and multiple sister concerns, including medical colleges, a nursing college, and 9 blood programs. The total financial volume under review for the period 2022-2024 exceeds BDT 13.93 billion, with total expenditures exceeding BDT 12.39 billion.

Our proposal is built on a risk-based audit methodology aligned with **International Standards on Auditing (ISA)**, the **IESBA Code of Ethics**, and **ISQM 1** quality management requirements. We bring:

- Proven Experience: 41 years of experience in special audits, compliance audits, forensic investigations, and donor-funded project audits for NGOs and humanitarian organizations.
- Qualified Team: A multidisciplinary team led by a qualified Chartered Accountant with relevant sector experience.
- **International Affiliation: ACNABIN is an independent member of Baker Tilly International, a global network of independent accounting and business advisory firms, providing access to international technical resources, methodologies and professional expertise.**
- ISQM 1 Compliance: An established system of quality management in accordance with the International Standard on Quality Management.

3.1.2 Key Highlights of Our Approach

3.1.3 Period under Review

01 January 2022 to 31 December 2024

3.1.4 Entities and Offices Under Review

1. BDRCS
 - a. Head Quarters
 - b. Units - 64 District and 4 City Corporations
 - c. Red Crescent Blood Programs - 9
2. Holy Family Red Crescent Medical College Hospital
3. Holy Family Red Crescent Medical College
4. Holy Family Red Crescent Nursing College

3.1.5 Our Commitments

We are committed to delivering:

1. Independent and objective assessment of identified financial and administrative matters
2. Comprehensive compliance review against BDRCS policies, procurement regulations, HR policies, and statutory requirements
3. Forensic examination where fraud indicators or misuse of funds are identified
4. Practical, actionable recommendations to strengthen governance, accountability, and internal control systems
5. All required deliverables within the 60-day timeframe: Inception Report, Draft Audit Report, Exit Meeting Presentation, Final Audit Report, and Executive Summary

3.2 Understanding of the assignment

3.2.1 Understanding of BDRCS and Its Operating Context

We understand that the Bangladesh Red Crescent Society (BDRCS) is a key humanitarian organization committed to maintaining the highest standards of transparency, accountability, and sound financial management in accordance with its Constitution, financial policies, donor requirements, and applicable laws and regulations of Bangladesh.

3.2.1.1 Organizational Structure

Financial Overview (2022-2024):

Entity	Total Receipt/Income (BDT)	Total Payment/Expenditure (BDT)
BDRCS NHQ	9,089,555,280	9,052,992,999
Holy Family Red Crescent Medical College Hospital	2,217,608,498	1,996,547,827
Holy Family Red Crescent Medical College	1,765,815,922	1,159,195,011
Holy Family Red Crescent Nursing College	258,917,108	69,822,070
Red Crescent Blood Centre	596,582,016	109,006,415
TOTAL	13,928,478,824	12,387,564,322

3.2.1.2 Understanding of the Assignment Objectives

We understand that the primary objectives of this special audit are to:

1. Conduct an independent and objective review of identified financial and administrative matters
2. Assess compliance with BDRCS financial policies, procurement regulations, HR policies, and applicable statutory requirements
3. Verify authenticity, accuracy, completeness, and propriety of financial transactions
4. Assess effectiveness of internal controls and risk management practices
5. Identify financial irregularities, non-compliance, fraud indicators, or misuse of organizational resources
6. Quantify financial implications resulting from identified irregularities
7. Recommend practical corrective actions and long-term improvements to strengthen governance, accountability, and internal control systems.

3.2.2 Understanding of the Comprehensive Scope of Work

We have segmented our understanding of the scope into ten distinct workstreams, as outlined in the ToR:

Scope Workstreams

Workstream	ToR Section	Key Focus Areas
A	Revenue Fund and Projects Funds	Revenue recognition, collections, expenditures, contracts, revenue-sharing arrangements
B	Procurement and Tender Process	Procurement planning, tendering, bid evaluation, contract awards, contract management
C	Post Facto Approval of Expenditures	Justification, approval process, supporting documentation, delegated authority compliance
D	Cash Advances and Settlements	Issuance, utilization, adjustment, settlement, long-outstanding advances
E	Fixed Assets Management	Existence, ownership, utilization, safeguarding, condition, physical verification
F	Payroll and HR Compliance	Payroll processing, salary payments, allowances, benefits, taxes, statutory deductions

Workstream	ToR Section	Key Focus Areas
G	Investigation of Suspected Fraud	Fraud indicators, forensic examinations, responsible parties, financial impact
H	Donor Fund Compliance Review	Donor agreements, budgets, financial reporting, procurement rules, grant conditions
I	Period under Review	1 January 2022 to 31 December 2024
J	Sister Concerns	Recruitment, procurement, cash management, yearly increment, salary calculation, VAT/Tax

3.2.2.1 Understanding of Sister Concerns

We fully comprehend that the audit must cover all sister concerns of BDRCS:

1. Holy Family Red Crescent Medical College Hospital – Revenue BDT 2.22 billion
2. Holy Family Red Crescent Medical College – Revenue BDT 1.77 billion
3. Holy Family Red Crescent Nursing College – Revenue BDT 0.26 billion
4. Red Crescent Blood Program – Revenue BDT 0.60 billion

For these entities, we will specifically review:

- Recruitment process
- Procurement process
- Cash management
- Yearly increment
- Salary calculation
- VAT and tax deduction as per Government policy
- Allegations or indicators of fraud, financial misconduct, misuse of funds, conflicts of interest, or abuse of authority

3.2.3 Understanding of Key Audit Risks

Based on our analysis of the ToR and the financial data provided, we have identified the following key risk areas. After conducting risk assessment as mentioned in Section 3, our understanding of key audit risks may change.

3.2.3.1 High-Risk Areas

Risk Area	Rationale
Procurement Irregularities	Large procurement volumes across NHQ and sister concerns; risk of biased evaluation, conflicts of interest, and non-compliance with BDRCS Procurement Policy
Fraud and Misuse of Funds	Specific requirement for forensic investigations; allegations or indicators require specialized examination
Donor Fund Non-Compliance	Multiple international donors; ineligible expenditures could result in donor recovery and reputational risk

3.2.3.2 Medium-Risk Areas

Risk Area	Rationale
Cash Advances	Risk of long-outstanding advances, duplicate claims, and unsupported expenditures

Risk Area	Rationale
Post Facto Approvals	May indicate systemic control weaknesses rather than genuine exceptions
Payroll Compliance	Risk of unauthorized payments, incorrect statutory deductions, and non-compliance with HR policies

3.2.3.3 Low-Risk Areas

Risk Area	Rationale
Fixed Assets	Lower inherent risk but still requires physical verification
Revenue Recognition	Generally well-documented through donor agreements and service fees

3.3 Risk assessment and risk identification

3.3.1 Risk Assessment Framework

We will apply a comprehensive risk-based audit methodology in accordance with International Standards on Auditing (ISA). Our risk assessment framework comprises four key components:

3.3.2 Entity-Level Risk Assessment

3.3.2.1 Understanding the Entity and Its Environment

We will gain an understanding of:

Area	Key Considerations
Organizational Structure	Relationship between NHQ and sister concerns; governance and oversight mechanisms
Regulatory Environment	Compliance with BDRCS Constitution, financial policies, procurement regulations, and Government of Bangladesh laws
Donor Requirements	Compliance with requirements of UN agencies, EU, USAID, FCDO, GIZ, JICA, World Bank, ADB, etc.
Information Systems	Financial accounting systems, procurement systems, HR/payroll systems
Internal Control Environment	Control culture, management philosophy, ethical values

3.3.2.2 Key Entity-Level Risks

3.3.3 Process-Level Risk Assessment

3.3.3.1 Revenue and Projects Funds (Section A)

Risk Category	Identified Risks	Impact
Revenue Recognition	Revenue not recorded in correct period; restricted vs unrestricted funds misclassified	Financial misstatement
Revenue Leakage	Collections not fully accounted; revenue-sharing arrangements not properly tracked	Financial loss
Contract Compliance	Terms of agreements not followed; revenue recognized without proper documentation	Compliance breach

3.3.3.2 Procurement and Tender Process (Section B)

Risk Category	Identified Risks	Impact
Fairness and Transparency	Biased evaluation criteria; lack of competition; insider dealing	Value for money not achieved
Conflict of Interest	Procurement committee members with supplier relationships	Fraud risk
Compliance	Non-compliance with BDRCS Procurement Policy; donor procurement rules violated	Policy violation; donor recovery
Contract Management	Poor contract administration; unauthorized variations	Financial loss

3.3.3.3 Post Facto Approval of Expenditures (Section C)

Risk Category	Identified Risks	Impact
Systemic Weakness	Post facto approvals used routinely rather than exceptionally	Control environment breakdown

Risk Category	Identified Risks	Impact
Authority Violation	Expenditures exceeding delegated authority approved post facto	Unauthorized spending
Documentation	Inadequate justification and supporting documentation	Inability to verify propriety

3.3.3.4 Cash Advances and Settlements (Section D)

Risk Category	Identified Risks	Impact
Outstanding Advances	Advances not settled for extended periods	Misappropriation risk
Duplicate Claims	Same expense claimed multiple times	Financial loss
Unsupported Expenditures	Advances settled without proper receipts/invoices	Fraud indicator

3.3.3.5 Fixed Assets Management (Section E)

Risk Category	Identified Risks	Impact
Existence	Assets recorded but not physically present	Misstatement of assets
Safeguarding	Inadequate controls over asset custody	Theft or loss
Disposal	Unauthorized disposal; disposal proceeds not accounted for	Financial loss

3.3.3.6 Payroll and HR Compliance (Section F)

Risk Category	Identified Risks	Impact
Unauthorized Payments	Payments to non-existent employees; ghost employees	Financial loss

Risk Category	Identified Risks	Impact
Statutory Compliance	Incorrect VAT/TDS deductions; late remittance	Regulatory penalties
HR Policy Compliance	Unauthorized salary increments; non-compliant appointments	Policy violation

3.3.3.7 Fraud and Misuse of Funds (Section G)

Risk Category	Identified Risks	Impact
Fraud Indicators	Unusual patterns in transactions; unexplained adjustments	Misappropriation
Misuse of Authority	Abuse of delegated authority for personal benefit	Governance failure
Conflict of Interest	Undisclosed relationships with suppliers or beneficiaries	Integrity breach

3.3.3.8 Donor Fund Compliance (Section H)

Risk Category	Identified Risks	Impact
Ineligible Expenditures	Costs not allowed under donor agreements	Donor recovery
Reporting Non-Compliance	Inaccurate or late financial reports	Reputational damage
Procurement Non-Compliance	Procurement not following donor rules	Funding withdrawal

3.3.3.9 Sister Concerns (Section J)

Risk Category	Identified Risks	Impact
Recruitment	Unauthorized hires; non-transparent recruitment	HR policy violation

Risk Category	Identified Risks	Impact
Cash Management	Weak controls over fee collections; theft of cash	Financial loss
Tax Compliance	Incorrect VAT/TDS deduction; non-compliance with Govt policy	Regulatory penalties

3.3.4 Fraud Risk Assessment

3.3.4.1 Fraud Risk Factors

Risk Factor Category	Specific Risk Indicators
Incentives / Pressures	- Financial targets for projects - Pressure to show high donor utilization rates
Opportunities	- Weak internal controls - Inadequate oversight of sister concerns
Attitudes / Rationalizations	- Culture of non-compliance - Justification of "borrowing" funds (i.e., temporary misuse)

3.3.4.2 Specific Fraud Risk Indicators to Monitor

Indicator	Red Flag	Investigation Approach
Procurement	Single bids; repeated awards to same supplier; prices above market	Review bidding documents; supplier background checks

Indicator	Red Flag	Investigation Approach
Cash Advances	Advances to same individual repeatedly; delayed settlements	Transaction pattern analysis; interviews
Payroll	Employee on payroll but not working; duplicate payments	Physical verification; payroll data analytics
Revenue	Cash collections not deposited; discounts without authorization	Reconciliation of receipts to deposits

3.3.4.3 Fraud Investigation Protocol

We recognize that investigating potential fraud, financial misconduct, and misuse of funds is a highly sensitive and critical component of this special audit. Our investigation protocol is designed to be rigorous, objective, and confidential, strictly adhering to **International Standard on Auditing (ISA) 240** (The Auditor's Responsibilities Relating to Fraud) and international forensic best practices in accordance with **ISO 21043 Forensic Sciences**.

Our protocol follows a structured, phased approach to ensure that allegations are handled systematically, evidence is preserved, and conclusions are defensible.

3.3.5 Materiality Determination

We will determine materiality based on:

Materiality Level	Basis	Application
Overall Materiality	Percentage of total expenditures (approximately BDT 12.39 billion)	To determine scope of audit procedures
Performance Materiality	Lower threshold to reduce aggregation risk	To determine sample sizes
Specific Materiality	For sensitive items (procurement, fraud, donor compliance)	To ensure high-risk areas receive adequate attention

Proposed Materiality Thresholds:

Category	Threshold
Overall Materiality	1% of total expenditures ≈ BDT 124 million
Performance Materiality	70% of overall ≈ BDT 87 million
Specific Materiality (Fraud/Procurement)	Lower threshold applied on case-by-case basis

3.4 Assessment of Internal Control and Information Systems

We would like to conduct a systematic assessment of two major dimensions: (1) **Internal Control System Assessment** and (2) **Organizational Information Requirements Assessment**. It includes actionable steps, ready-to-use templates, and an integrated workflow. Following framework will cover assessment of these systems.

3.4.1 Part 1: Internal Control System Assessment

3.4.1.1 Overall Assessment Framework: The Six-Step Method

Internal control assessments follow a structured six-step approach:

Step	Activity	Key Output
1	Identify Transaction/Event Cycles	List of transaction cycles
2	Analyze the Control Environment	Control environment assessment report
3	Document Each Transaction/Event Cycle	Flowcharts, narrative descriptions, control matrices
4	Evaluate Internal Controls within Each Cycle	Conclusions on control design effectiveness
5	Test Internal Controls	Control testing results
6	Evaluate Findings and Develop Corrective Actions	Defect summary and remediation plan

3.4.1.2 Detailed Assessment Procedures

Phase 1: Planning & Scoping

Objective: Define the scope, assemble the team, and set the timeline.

Key Activities:

1. Form the project team—define roles, responsibilities, competence, and objectivity.
2. Determine the assessment scope—identify business processes, entities, and locations to cover.
3. Identify significant accounts and disclosures.
4. Map business processes to significant accounts.
5. Identify sources of internal control information and documentation.
6. Develop the project timeline.

Template Example: Project Planning Summary (ADM-2)

Field	Details
Project Name	[Insert Name]
Assessment Period	[Start Date] to [End Date]
Team Leader	[Name]
Team Members & Roles	1. [Name] - [Role/Responsibility] 2. [Name] - [Role/Responsibility]
Scope (Units/Locations)	[List specific business units or locations]
Scope (Processes/Cycles)	[List specific transaction cycles]
Key Milestones	Planning: [Date] Documentation Review: [Date] Testing Completed: [Date] Final Report: [Date]

Phase 2: Identify Transaction/Event Cycles

Objective: Divide the organization's processing systems into logical work-flow patterns (cycles).

Key Points:

- A transaction/event cycle is a series of interrelated processes that initiate and complete a final product, creating documentation and reporting data.

- Each cycle must have a clear starting point and ending point.
- *Example:* The **Payment Cycle** begins with receiving an invoice and ends with issuing a check/EFT.

Common Transaction Cycles:

- Revenue/Receipts Cycle
- Procurement/Disbursements Cycle
- Inventory Management Cycle
- Payroll Processing Cycle
- Fixed Assets Management Cycle
- Financial Reporting Cycle

Phase 3: Analyze the Control Environment

Objective: Assess the foundation of the organization's internal controls (based on the COSO Framework).

Template Example: Control Environment Evaluation Sheet

COSO Principle	Exists? (Y/N)	Operating? (Y/N)	Comments/Conclusions
1. Commitment to Integrity & Ethical Values			
2. Board of Directors' Oversight Responsibility			
3. Establishment of Structure, Authority & Responsibility			
4. Commitment to Competence			
5. Enforcing Accountability			

Template Example: Control Environment Defect Log

Defect ID	Defect Description	Severity Assessment (High/Med/Low)	Compensating Controls?	Is it a Material Weakness?
CE-01	[Describe the gap]	High	[Yes/No]	[Yes/No]

Phase 4: Document Each Transaction/Event Cycle

Objective: Systematically document the internal controls for each transaction cycle.

Documentation Techniques:

- Flowcharts: Graphical representation of processing steps and controls.
- Narrative Descriptions: Written text describing the control process.
- Control Matrices: Table listing risks, control objectives, and control activities.

Template Example: Risk & Control Matrix (RCM)

Process Step	Risk Description	Control Objective	Control Activity	Control Type (Preventive/Detective)	Frequency	Responsible Dept.
1. PO Creation	Unauthorized purchases	Ensure only valid POs are created	Manager approval required for all POs over \$5k	Preventive	Every transaction	Procurement
2. Invoice Receipt	Duplicate payments	Ensure payments are not duplicated	3-way match (PO, Receipt, Invoice) before payment	Detective	Daily	AP

Phase 5: Evaluate & Test Internal Controls

Objective: Assess the design effectiveness of controls and test their operating effectiveness.

Testing Methods:

- Inquiry: Asking personnel about how controls are performed.
- Observation: Watching the control activity as it is executed.
- Inspection: Examining relevant documents, records, and reports.
- Re-performance: Independently re-performing the control to verify the result.

Template Example: Control Testing Worksheet

Control ID	Control Description	Test Method (I/O/In/Re)	Sample Size	Test Result (Pass/Exception)	Exception Details
AP-02	3-way match before payment	Inspection	25 invoices	Pass	N/A
PR-01	Manager approval for POs >\$5k	Re-performance	15 POs	Exception	3 POs lacked approval signatures.

Phase 6: Evaluate Findings & Remediation

Objective: Aggregate defects, assess severity, and develop an action plan.

Severity Classification:

- **Internal Control Deficiency:** A weakness in a component or principle that reduces the likelihood of achieving objectives.
- **Major Deficiency (Material Weakness):** A combination of one or more deficiencies that severely reduces the likelihood of achieving objectives.

Template Example: Defect Summary & Remediation Plan

Defect ID	Defect Description	Affected Component/Principle	Severity	Remediation Action	Responsible Party	Target Date	Status
PR-01	Lack of segregation of duties in PO creation	Control Activities	High	Implement secondary reviewer role	IT Director	2026-09-30	In Progress

3.4.1.3 Control Self-Assessment (CSA) Tool

CSA Workflow:

1. Select high-risk operational areas for assessment.
2. Use an Internal Control Questionnaire (ICQ) to conduct the assessment.
3. Aggregate results and identify improvement opportunities.
4. Develop and track remediation measures.

CSA Coverage Areas:

- General Internal Controls
- Cash Receipts & Disbursements
- Asset Management
- Procurement & Payables
- Payroll Management

3.4.2 Part 2: Information Requirements Assessment

3.4.2.1 Information Requirements Assessment Framework

This assessment aims to identify the type, source, format, frequency, and distribution channels of information the organization needs to achieve its objectives.

3.4.2.2 Information Requirements Assessment Procedures

Step 1: Identify Stakeholders & Decision-Making Levels

Level	Stakeholders	Information Needs Type
Strategic	Board of Directors, C-Suite	Strategic performance, market trends, competitive intelligence
Managerial	Department Heads	Operational performance, budget execution, KPIs
Operational	Front-line Staff	Work instructions, transactional data, daily workflows

Step 2: Analyze Business Processes & Information Flow

Workflow:

1. Map the end-to-end business process.
2. Identify information inputs and outputs for each process node.
3. Determine the source and destination of the information.
4. Identify information gaps and redundancies.

Step 3: Determine Information Requirement Specifications

Template Example: Business Requirements Document (BRD) for Information

Field	Details
1. General Info	Req ID: [IR-001] Req Name: [Daily Sales Dashboard] Business Objective: [Monitor daily revenue against targets] Priority: [High / Medium / Low]
2. Content Specs	Data Elements: [Sales amount, units sold, region, product category] Data Format: [Currency: BDT, Date: YYYY-MM-DD] Source System: [ERP Sales Module] Data Quality Requirements: [Accuracy: 100%, Timeliness: T+1]
3. Delivery Specs	Frequency: [Daily at 8:00 AM] Format: [Interactive Dashboard (Power BI) / PDF Report / Raw Data Export] Distribution Channel: [Email / Intranet Portal] Recipients: [Sales Director, Regional Managers]
4. Security	Access Level: [Read-only for Managers; Edit for Admin] Confidentiality Requirement: [Internal use only]

Step 4: Information Requirements Gathering Methods

Method	Best For	Output
Interviews	Senior management, uncovering tacit needs	Transcripts, requirement lists
Surveys/Questionnaires	Large-scale, quantitative data collection	Prioritized requirement data
Workshops	Cross-departmental coordination	Consensus-based requirement documents
Document Analysis	Reviewing existing reports and systems	Current information asset inventory
Process Observation	Operational-level needs	Process-Information mapping

Sample Interview Questions:

- What information do you need daily/weekly to make decisions in your role?
- How do you currently obtain this information?
- Where does current information fall short (timeliness, accuracy, completeness)?
- If you could have any new piece of information to improve your work, what would it be?
- What changes to internal controls or information systems have occurred in the past year?

Step 5: Prioritization & Gap Analysis

Prioritization Criteria:

- Impact on critical business objectives.
- Frequency and importance of decision-making.
- Regulatory/compliance requirements.
- Implementation feasibility and cost.

Template Example: Gap Analysis Matrix

Information Requirement	Current State	Target State	Gap	Priority	Recommended Solution
Real-time inventory levels	Batch update once per day	Real-time update (1 min latency)	High latency	High	Implement new API integration with WMS
Monthly regional P&L	Manual Excel consolidation	Automated system report	Manual effort & errors	Med	Develop automated BI report

3.4.3 Part 3: Integrated Workflow - The Complete Assessment Lifecycle

Here is the end-to-end workflow integrating both Internal Controls and Information Requirements assessment:

PHASE 1: PLANNING & INITIATION

- Define assessment objectives & scope
- Assemble team
- Identify significant accounts & process mapping
- Develop project timeline (See ADM-2 template)

PHASE 2: DATA COLLECTION

- Review existing policies & procedure docs
- Identify transaction/event cycles
- Conduct process interviews & walkthroughs (inquiry/observation)

- Gather information requirements (interviews/surveys/workshops)

PHASE 3: DOCUMENTATION

- Draw flowcharts & write narrative descriptions
- Complete Risk & Control Matrices (RCM)
- Complete Business Requirements Documents (BRD)
- Document current control design & information flows

PHASE 4: EVALUATION & ANALYSIS

- Assess the control environment (COSO 5 components)
- Evaluate control design effectiveness
- Test control operating effectiveness (inspection/re-performance)
- Conduct information requirements gap analysis
- Identify defects & improvement opportunities

PHASE 5: REPORTING & REMEDIATION

- Aggregate assessment findings
- Classify defect severity (deficiency vs. major deficiency)
- Prepare management report
- Draft corrective action plans (See Remediation template)
- Track remediation progress to closure

3.4.4 Key Tools & Templates Checklist

Tool/Template Name	Purpose
Project Planning Summary (ADM-2)	Plan and manage the assessment project scope and timeline.
Control Environment Self-Assessment Questionnaire	Evaluate the 5 COSO principles of the control environment.
Risk Assessment Evaluation Template	Assess the effectiveness of the organization's risk assessment process.
Component Evaluation Template	Evaluate individual COSO components (e.g., Control Activities, Monitoring).
Risk & Control Matrix (RCM)	Document risks, controls, and control objectives for each process.

Tool/Template Name	Purpose
Control Testing Worksheet	Record testing methods, sample sizes, and results (pass/exception).
Defect Summary & Remediation Log	Track all control deficiencies and corrective actions to closure.
Walkthrough Questionnaire	Plan and document the results of process walkthroughs.
Business Requirements Document (BRD)	Document detailed information needs (content, format, frequency, security).
Gap Analysis Matrix	Compare current information capabilities against target requirements.
Management Reporting Checklist	Ensure all key findings are included in the final management report.

3.5 Audit methodology and work plan

3.5.1 Overall Audit Methodology

Our audit methodology is risk-based and aligned with **International Standards on Auditing (ISA)**.

The methodology comprises six phases:

3.5.2 Phase 1: Inception and Planning

3.5.2.1 Key Activities

Activity	Description	Deliverable
Kick-off Meeting	Meeting with BDRCS management to confirm scope, access, and timelines	Meeting minutes
Document Review	Collection and review of policies, procedures, agreements, and financial data	Document inventory
Preliminary Risk Assessment	Identification of key risk areas and high-risk transactions	Risk matrix
Audit Program Development	Detailed procedures for each scope area	Audit program
Information Request	Formal request for documents and data	Information request list

3.5.2.2 Information Requirements

We will request access to:

Document Category	Specific Documents
Policies & Procedures	BDRCS Constitution, Financial Policies, Procurement Policy, HR Policy, Fixed Asset Policy

Document Category	Specific Documents
Financial Records	General ledgers, trial balances, bank statements, vouchers (2022-2024)
Donor Agreements	All donor/grant agreements, budgets, and financial reports
Procurement Records	Procurement plans, tender documents, evaluation reports, contracts
HR Records	Employee lists, contracts, payroll registers, attendance records
Sister Concern Records	Separate financial statements and supporting documents

3.5.2.3 Inception Report Contents

The Inception Report will include:

1. Detailed audit methodology
2. Comprehensive work plan and timeline
3. Information requirements
4. Risk assessment framework
5. Materiality determination
6. Sampling strategy
7. Team composition and responsibilities
8. Communication protocol

3.5.3 Phase 2: Risk Assessment and Scoping

3.5.3.1 Control Environment Assessment

We will assess the control environment across:

3.5.3.2 Control Design and Implementation Testing

Control Area	Testing Approach
Revenue	Review revenue policies; test authorization and segregation of duties
Procurement	Review procurement process flow; test approval thresholds
Payroll	Review HR policies; test approval and payment processes
Cash Management	Review cash handling procedures; test reconciliation processes
Assets	Review asset management procedures; test physical controls

3.5.4 Phase 3: Fieldwork and Testing

3.5.4.1 Compliance Testing

We will perform compliance testing to verify adherence to:

- BDRCS Financial Policies
- BDRCS Procurement Policy
- Human Resource Policies
- Fixed Asset Management Policy
- Donor requirements
- Applicable statutory requirements

3.5.4.2 Substantive Testing

We will perform substantive testing on:

Area	Testing Procedure
Revenue	Vouching of receipts to supporting documents; revenue recognition testing
Expenditure	Vouching of payments to invoices, contracts, and approvals
Cash Advances	Review of advance issuance, utilization, and settlement
Payroll	Testing of payroll calculations, deductions, and payments

3.5.4.3 Analytical Review Procedures

We will apply analytical procedures including:

- Trend analysis (year-over-year comparisons)
- Ratio analysis (expense ratios, utilization rates)
- Reasonableness tests (budget vs. actual comparisons)

- Horizontal and vertical analysis of financial statements

3.5.4.4 Physical Verification

We will conduct physical verification of:

- Selected fixed assets
- Inventory (where applicable)
- Cash on hand

3.5.5 Phase 4: Forensic Investigation

3.5.5.1 Overview

Phase 4 addresses the specific requirement under ToR Section G: Investigation of Suspected Fraud or Misuse of Funds. This phase is activated when fraud indicators, whistle-blower allegations, or analytical red flags are identified during the fieldwork phase. Our forensic investigation is conducted in accordance with ISA 240 (The Auditor's Responsibilities Relating to Fraud) and international forensic best practices.

3.5.5.2 Key Procedures in a Forensic Audit

While specific procedures vary by case, a forensic audit generally follows a structured **five-step process**:

1. Planning the Investigation

This initial phase establishes the foundation for the entire audit:

- Initial meeting with the client: Understand the key facts, parties involved, and issues at hand.
- Conflict of interest check: Ensure objectivity by verifying no conflicts exist with any involved parties.
- Skills assessment: Confirm the team possesses the necessary expertise and experience.
- Define objectives and scope: Identify key risks, establish the audit's methodology, and develop a work plan and budget.
- Initial investigation: Conduct a preliminary action plan to inform subsequent detailed planning.

2. Collecting Evidence

This is the core investigative phase, involving the systematic gathering of relevant information:

- Document examination: Review financial records including ledgers, journals, invoices, bank statements, contracts, and other relevant documents.
- Interviews: Conduct interviews with knowledgeable persons, including witnesses and potential suspects.

- Background investigations: Review public documents and conduct background checks on relevant individuals.
- Digital forensics: Examine emails, accounting records, phone logs, and hard drives for digital evidence.
- Preserve chain of custody: Document all evidence handling to ensure reliability and admissibility in court.

3. Performing Analysis

The collected evidence is subjected to rigorous analytical procedures:

- Analytical procedures: Use ratio analysis, trend analysis, horizontal and vertical analysis to identify anomalies.
- Statistical techniques: Perform regression analysis, sensitivity analysis, and other statistical methods.
- Computer-assisted audit techniques (CAATs): Use specialized software for data extraction, querying, and manipulation.
- Hypothesis testing: Develop and test hypotheses about potential fraud mechanisms.
- Quantification: Calculate economic damages, financial losses, and loss of goodwill where applicable.

4. Reporting

The findings are compiled into a formal report:

- Report structure: Includes executive summary, introduction, background, scope and methodology, detailed analysis, discussion of issues, and conclusions with recommendations.
- Supporting documentation: Include working papers, exhibits, charts, graphs, tables, and references.
- Clarity and objectivity: The report must be clear, concise, and objective, suitable for presentation in legal proceedings.

5. Court Proceedings

If the investigation leads to legal action:

- Expert testimony: The forensic auditor may be called to testify as an expert witness in court or arbitration.
- Evidence presentation: Explain and defend the audit report, evidence, and methodology before the judge, jury, or opposing party.
- Legal and ethical compliance: Adhere to all applicable legal and ethical standards governing expert witnesses.

3.5.5.3 Common Forensic Audit Techniques

Forensic auditors employ a range of specialized techniques:

Technique Category	Examples
General Audit Techniques	Testing internal controls and defences; attempting to circumvent controls to identify weaknesses
Statistical & Mathematical	Trend analysis, ratio analysis, horizontal/vertical analysis
Digital Forensics	Cross-drive analysis, live analysis, recovery of deleted files, steganography detection
Computer-Assisted Audit Techniques (CAATs)	Data extraction, querying, summarization, and analytical tasks using specialized software
Generalized Audit Software (GAS)	"What-if" scenario testing; interactive data examination

3.5.5.4 Key Activities

Activity	Description
Intake & Triage Assessment	All allegations or fraud indicators are formally documented, assigned a unique case number, and time-stamped. A preliminary assessment determines the plausibility, materiality, and urgency of the allegation.
Investigation Planning	The scope is defined, the forensic team is assembled, and formal authorization is obtained from the Secretary General or designated committee.
Evidence Collection	We systematically gather evidence using: • Computer-Assisted Audit Techniques (CAATs): Data analytics (Benford's Law, duplicate payment testing, vendor analysis) • Document Examination: Physical and electronic document review • Forensic Interviews: Structured interviews with witnesses and subjects • Digital Forensics: ○ Examination of email, metadata, and system access logs ○ Evidence Analysis & Corroboration ○ Multiple sources of evidence are cross-referenced to establish a coherent narrative. We require corroboration to support any definitive conclusion. ○ Identification of Responsible Parties

Activity	Description
	○ Based on documentary and testimonial evidence, we systematically identify the individuals involved, their roles, and their level of culpability. ○ Quantification of Financial Impact • We precisely calculate the financial exposure, including: ○ Direct loss (funds misappropriated) ○ Indirect loss (opportunity costs, penalties, interest) ○ Recoverable amounts (assets that can be clawed back) ○ Root Cause Analysis • We analyze the underlying control failures that allowed the fraud to occur, supporting the development of preventive recommendations.

3.5.5.5 Chain of Custody and Evidence Integrity

Throughout the investigation, we maintain an unbroken **Chain of Custody**:

- All documents and digital files are logged, securely stored, and accessible only to the investigation team.
- Any movement or handling of evidence is recorded in a custody log.
- This ensures that all evidence is admissible in any subsequent disciplinary, civil, or legal proceedings.

3.5.5.6 Confidentiality

Given the high sensitivity of fraud investigations, we maintain absolute confidentiality. No information regarding the investigation—including the identity of whistle-blowers or subjects under investigation—is disclosed to any party outside the designated BDRCS committee without explicit prior written authorization.

3.5.5.7 Deliverables

Deliverable	Description
Interim Reports	For critical, ongoing fraud risks, we provide immediate verbal or written updates to the Secretary General for urgent containment measures.
Confidential Investigation Report	A separate, detailed report (appendix to the Final Audit Report) containing the chronology, methodology, evidence, findings, responsible parties, quantified financial impact, and recommendations.

3.5.6 Phase 5: Reporting

3.5.6.1 Overview

Phase 5 involves the preparation and presentation of the Draft Audit Report and the Exit Meeting Presentation. This phase ensures that all findings are communicated clearly, supported by evidence, and discussed with management before finalization.

3.5.6.2 Key Activities

Activity	Description
Draft Report Preparation	We consolidate all findings from Phases 1-4 into a comprehensive Draft Audit Report. The report is structured to address each ToR Section (A-J) individually, with clear findings, supporting evidence, risk assessment, and recommendations.
Internal Quality Review	Before submission, the Draft Report undergoes our ISQM 1-compliant quality review process, including technical review by the Engagement Partner and independent review by our Quality Assurance Partner.
Submission of Draft Report	The Draft Audit Report is submitted to the Secretary General and/or the designated committee for review.
Exit Meeting Preparation	We prepare a concise, impactful presentation highlighting key findings, financial implications, and priority recommendations.
Exit Meeting	We present the findings to BDRCS management in a formal meeting. This allows management to provide initial feedback, clarify any issues, and discuss proposed recommendations.

3.5.6.3 Draft Audit Report Structure

Section	Content
Executive Summary	Overview of the assignment, key findings, and priority recommendations
Scope and Methodology	Audit scope, period under review, and procedures performed
Findings by Area	Detailed findings for each ToR Section (A-J), including: • Observation description • Supporting evidence/reference • Risk assessment (High/Medium/Low)

- Financial impact (quantified)
- Recommendation: Overall Assessment | Summary of internal control weaknesses, governance issues, and compliance gaps | Appendices | Supporting schedules, detailed working papers, and investigation reports |

3.5.6.4 Exit Meeting Presentation

Section	Content
Introduction	Assignment background and objectives
Methodology	Overview of approach and procedures
Key Findings	Major observations and irregularities (by ToR section)
Financial Impact	Total quantified financial implications
Priority Recommendations	Top recommendations requiring immediate action
Next Steps	Timeline for final report submission and management response

3.5.6.5 Deliverables

Deliverable	Description	Due Date
Draft Audit Report	Comprehensive report with findings, evidence, and recommendations	Day 57
Exit Meeting Presentation	PowerPoint/PDF presentation for management	Day 58

3.5.7 Phase 6: Finalization

3.5.7.1 Overview

Phase 6 involves the finalization of the audit report, incorporating management responses and agreed action plans, and the submission of all final deliverables within the 60-day assignment period.

3.5.7.2 Key Activities

Activity	Description
Management Response Collection	Following the Exit Meeting, we formally request written management responses to each finding and recommendation, including agreed action plans and timelines.
Final Report Preparation	We incorporate management responses and agreed action plans into the Final Audit Report. Any unresolved disagreements are clearly noted.
Quality Review	The Final Report undergoes final quality assurance review, including independence confirmation and technical accuracy.
Executive Summary Preparation	We prepare a concise, standalone Executive Summary highlighting key findings, financial implications, and priority recommendations for the Managing Board and senior leadership.
Final Submission	All final deliverables are submitted to the Secretary General or designated committee.
Formal Acceptance	We support BDRCS in reviewing and formally accepting the Final Audit Report, in accordance with the payment terms (100% upon acceptance).

3.5.7.3 Final Audit Report Structure

Section	Content
Executive Summary	Concise overview for senior leadership and the Managing Board
Introduction	Background, objectives, and scope
Methodology	Detailed audit approach and procedures
Findings by Area	Findings for each ToR Section (A-J) with: • Management response • Agreed action plan • Timeline for implementation

Overall Assessment | Summary of internal control weaknesses, governance issues, and compliance gaps | Priority Recommendations | Tiered recommendations (Immediate, Short-term, Long-term) | Appendices | Supporting schedules, management response letters, and investigation reports |

3.5.7.4 Executive Summary Structure

The Executive Summary is a **standalone document** designed for the Managing Board, senior leadership, and key stakeholders. It will be concise (5-10 pages) and include:

Section	Content
Overview	Assignment background and objectives
Scope and Methodology	Summary of audit scope and approach
Key Findings	Top 5-10 most significant findings (by risk level)
Financial Implications	Total quantified financial impact (aggregated by category)
Priority Recommendations	Tiered recommendations with action owners and timelines
Overall Conclusion	Summary assessment of governance, internal controls, and compliance

3.5.7.5 Deliverables

Deliverable	Description	Due Date
Final Audit Report	Comprehensive report with management responses and agreed action plans	Day 60
Executive Summary	Concise standalone summary for senior leadership	Day 60
Supporting Schedules	Detailed working papers and supporting documentation	Day 60
Electronic Copy	All deliverables in PDF and editable format	Day 60

3.5.7.6 Handover and Closure

Activity	Description
Formal Handover	All deliverables and working papers are formally handed over to BDRCS. All reports, data, and materials become the sole property of BDRCS, in accordance with ToR Section 13.
Knowledge Transfer	We provide a brief walkthrough of key findings and recommendations to the designated BDRCS team to ensure a smooth transition and understanding of the action plan.
Post-Engagement Support	We remain available for a reasonable period (up to 30 days) after the assignment to answer any questions, clarify findings, or provide additional support as needed.
Confidentiality	We reaffirm our confidentiality obligations, which survive the completion of the engagement in accordance with ToR Section 9.

3.5.7.7 Complete Work Plan Summary

Phase	Title	Duration	Key Activities	Key Deliverable
1	Inception & Planning	Days 1-15	Kick-off meeting, document collection, preliminary risk assessment	Inception Report
2	Risk, Internal Control and IT requirement Assessment & Scoping	Days 16-20	Detailed risk analysis, control environment assessment, finalize audit program	Finalized Audit Program
3	Fieldwork & Testing	Days 21-45	Compliance testing, substantive testing, analytical review, physical verification	Working Papers
4	Forensic Investigation	Days 46-55	Forensic procedures, interviews, evidence analysis, quantification	Investigation Findings

Phase	Title	Duration	Key Activities	Key Deliverable
5	Reporting	Days 56-58	Draft report preparation, exit meeting presentation	Draft Report, Presentation
6	Finalization	Days 59-60	Final report, executive summary, formal handover	Final Audit Report, Executive Summary

Activities	W1	W2	W3	W4	W5	W6	W7	W8
Kick-off, document collection, preliminary risk assessment								
IT systems, control environment assessment, audit program development, compliance testing								
Detailed risk assessment, finalize audit program								
Substantive testing, analytical review, fixed assets verification								
Forensic procedures, interviews, sister concerns								
Evidence analysis, quantification, draft report preparation, Exit Meeting								
Stakeholders feedback accommodation, final report preparation and submission								

3.5.8 Communication and Reporting Protocol

Throughout all six phases, we maintain clear and regular communication with BDRCS:

Communication Channel	Frequency	Participants
Kick-off Meeting	Start of engagement	Full team, BDRCS leadership
Weekly Status Meetings	Weekly	Audit Manager, BDRCS Coordinator
Progress Reports	Bi-weekly	Engagement Partner, Secretary General
Exit Meeting	End of fieldwork	Full team, BDRCS Management

Communication Channel	Frequency	Participants
Urgent Issues	As needed	Engagement Partner, Secretary General

3.5.9 Detailed Audit Procedures by Scope Area

3.5.9.1 A. Revenue Fund and Projects Funds

Key Procedures:

1. Obtain and review revenue schedules for NHQ and all sister concerns
2. Test revenue recognition against accounting policies and donor agreements
3. Verify contracts and revenue-sharing arrangements
4. Identify any revenue leakage or control weaknesses
5. Quantify financial implications of any irregularities

3.5.9.2 B. Procurement and Tender Process

Key Procedures:

1. Obtain complete procurement list (2022-2024)
2. Select samples based on risk (value, method, supplier)
3. Review complete procurement documentation chain
4. Assess fairness, transparency, and competition
5. Identify any procurement irregularities or conflicts of interest
6. Verify compliance with BDRCS Procurement Policy and donor requirements

3.5.9.3 C. Post Facto Approval of Expenditures

Key Procedures:

1. Extract all post facto approved transactions
2. Analyze frequency, value, and patterns
3. Assess justification and approval process
4. Determine if systemic or exceptional
5. Recommend corrective actions

3.5.9.4 D. Cash Advances and Settlements

Key Procedures:

1. Obtain complete cash advance register
2. Identify long-outstanding advances (aging analysis)
3. Test sample of advances for proper approval and settlement
4. Verify supporting documents
5. Identify duplicate claims or irregular adjustments
6. Quantify financial impact

3.5.9.5 E. Fixed Assets Management

Key Procedures:

1. Obtain and reconcile Fixed Asset Register
2. Select samples for physical verification (account to physical and physical to account)
3. Verify existence, condition, and tagging
4. Review procurement, transfer, and disposal procedures
5. Verify depreciation calculations

3.5.9.6 F. Payroll and Human Resource Compliance

Key Procedures:

1. Obtain complete employee master list
2. Verify employment contracts and appointment documentation
3. Test payroll calculations (salary, allowances, benefits)
4. Verify statutory deductions (VAT, TDS, provident fund)
5. Review HR policy compliance
6. Identify irregular or unauthorized payments

3.5.9.7 G. Investigation of Suspected Fraud or Misuse of Funds

Key Procedures:

1. Review all allegations and fraud indicators
2. Conduct preliminary assessment
3. Perform forensic examinations where appropriate
4. Identify responsible parties based on documentary evidence
5. Estimate financial impact of irregularities

3.5.9.8 H. Donor Fund Compliance Review

Key Procedures:

1. Obtain all donor agreements and grant documents

2. Establish compliance parameters for each donor
3. Test expenditure eligibility against donor budgets and rules
4. Verify procurement compliance with donor requirements
5. Reconcile financial reports to accounting records
6. Identify ineligible expenditures and quantify impact

3.5.9.9 J. Sister Concerns

Key Procedures:

1. Apply all above procedures to each sister concern
2. Specifically review recruitment, procurement, cash management, yearly increment, salary calculation, and VAT/Tax deduction
3. Review any fraud allegations or indicators

3.5.10 Sampling Strategy

3.5.10.1 Sampling Methodology

We will use a combination of:

Sampling Type	Application	Basis
Statistical Sampling	Large populations with homogeneous characteristics	ISA 530
Judgmental Sampling	High-risk areas, unusual transactions	Professional judgment
Haphazard Sampling	Supplementary testing	ISA 530
100% Examination	Fraud indicators, high-value transactions	Risk-based approach

3.5.10.2 Sample Sizes

Area	Population	Sample Size	Sampling Method
Revenue Transactions	All receipts	50-100 per entity	Statistical
Expenditure Transactions	All payments	100-200 per entity	Statistical + Judgmental

Area	Population	Sample Size	Sampling Method
Procurement	All procurements > threshold	All high-value + 50 medium	100% high-value + Statistical
Payroll	All employees	50-100 employees	Statistical
Cash Advances	All advances	50-100 advances	Judgmental + Statistical

3.5.11 Work Plan and Timeline

3.5.11.1 Detailed Work Plan

Week	Dates	Activities	Key Deliverables
Week 1	Days 1-7	Kick-off, document collection, preliminary risk assessment	Document inventory, risk matrix
Week 2	Days 8-15	Control environment assessment, audit program development	Inception Report
Week 3	Days 16-20	Detailed risk assessment, finalize audit program	Finalized audit program
Week 4	Days 21-28	Compliance testing (procurement, payroll, revenue)	Working papers
Week 5	Days 29-35	Substantive testing (expenditures, cash advances)	Working papers
Week 6	Days 36-42	Analytical review, fixed assets verification	Working papers
Week 7	Days 43-49	Forensic procedures, interviews, sister concerns	Investigation findings
Week 8	Days 50-55	Evidence analysis, quantification, report preparation	Draft findings

Week	Dates	Activities	Key Deliverables
Week 9	Days 56–58	Draft Report preparation, Exit Meeting	Draft Report, Presentation
Week 10	Days 59–60	Final Report, Executive Summary	Final deliverables

3.6 Team composition and key personnel

3.6.1 Team Structure

3.6.2 Team Composition

Our approach leverages extensive expertise in special audit, compliance review and forensic audit. By merging our technical experience in risk assessment, financial and administrative management, compliance and substantive testing, forensic audit, etc. with a highly participatory methodology, we ensure that updated financial, procurement, inventory and fixed asset management policies and procedures will be both strategically aligned and operationally practical. Our assignment will be conducted by 11 teams:

Teams	Number of Team(s)
BDRCS HQ Team	1
HFRC Medical College Hospital	1
HFRC Medical College	1
HFRC Nursing College	1
Unit Office Teams (Red Crescent Blood Programs, District Units, City Corporation Units)	7
Total	11

Our assignment will be conducted and managed by a twenty-eight member team consisting of:

Role	Number of Persons
Team Leader	1
Assignment In-Charge	1
Special Audit Lead	1
Forensic Lead	1
Forensic Analysts	2
Data Analysts	2
Senior Auditors	9
Audit Associates	11
Total	28

Our engagement will employ a mixed team comprising qualified women and men.

3.6.3 Key Personnel

3.6.3.1 Team Leader

Attribute	Details
Position	Team Leader
Qualification	Chartered Accountant (CA)
Experience	20+ years
Relevant Experience	Special audits, compliance audits, forensic investigations, NGO audits

Attribute	Details
Responsibilities	Overall engagement management, quality assurance, client liaison, final report approval

3.6.3.2 Assignment In-Charge

Attribute	Details
Position	Assignment In-Charge
Qualification	Chartered Accountant (CA)
Experience	20+ years
Relevant Experience	Special audits, compliance audits, forensic investigations, NGO audits, Governance, Risk Management Systems, ISO Standards, financial management, fund management, representing management at BOD, managing audit committee activities, internal and external auditing, business processes reengineering, SOP preparation, compliances, IT management, and designing and implementing information systems (Oracle ERP, SAP ERP, SAP Business Intelligence, and SAP Supply Chain Management)
Responsibilities	Risk assessment, work plan, team management, work programme development, team guidance, quality assurance, client liaison, report preparation

3.6.3.3 Special Audit Lead

Attribute	Details
Position	Special Audit Lead
Qualification	Partly Qualified Chartered Accountant
Experience	5+ years
Relevant Experience	Audit management, compliance audits, donor-funded project audits

Attribute	Details
Responsibilities	Risk, internal control and information systems assessment, daily engagement management, team supervision, technical review, report drafting

3.6.3.4 Forensic Lead

Attribute	Details
Position	Forensic Lead
Qualification	Partly Qualified Chartered Accountant
Experience	5+ years
Relevant Experience	Fraud investigations, forensic examinations, litigation support
Responsibilities	Risk, internal control and information systems assessment, fraud investigation, forensic procedures, evidence analysis, quantification

Are bank account reconciliations performed by personnel independent of the collection function?		
Are restricted funds accounted for separately from general funds?		
Is there a mechanism for regular financial reporting to donors/funders?		
Is there adequate segregation of duties (collection, recording, reconciliation)?		

3.10.2 Annexure B: Revenue Transaction Testing Worksheet

Sample No.	Transaction Date	Revenue Source / Donor	Voucher No.	Book Amount (BDT)	Supporting Docs	Recording Date	Result
1							
2							

3.10.3 Annexure C: Procurement Compliance Checklist

Check Item	Compliant	Non-Compliant	N/A	Remarks
Procurement Planning				
Is there an annual/project procurement plan?				
Is there a clear technical specification/scope of work?				
Is the procurement budget approved?				
Tendering Phase				
Is the procurement method appropriate?				
Was the tender notice published on appropriate platforms?				
Was adequate bidding period allowed?				
Evaluation Phase				
Is there a formal evaluation committee?				
Were evaluation criteria predetermined and disclosed?				
Is the evaluation process properly documented?				
Award & Contract Phase				
Was the award approved by the appropriate authority?				
Does the contract contain all necessary terms and conditions?				

Check Item	Compliant	Non-Compliant	N/A	Remarks
------------	-----------	---------------	-----	---------

Were any conflicts of interest identified?

Contract Management Phase

Was acceptance/inspection performed per contract terms?

Are payments aligned with delivery milestones?

3.10.4 Annexure D: Procurement Transaction Testing Worksheet

Procurement No.	Date	Description	Method	Contract Value (BDT)	Awarded Supplier	Evaluation Committee	Approver	Acceptance Status	Conclusion

3.10.5 Annexure E: Post Facto Approval Review Sheet

No.	Voucher No.	Transaction Date	Approval Date	Days Lag	Amount (BDT)	Approver	Justification	Docs Complete?	Conclusion

Summary Statistics:

- Total number of post facto transactions: ____
- Total value of post facto expenditures: ____ BDT
- Percentage of total expenditure: ____%
- Average approval delay: ____ days
- Maximum approval delay: ____ days

3.10.6 Annexure F: Cash Advance and Settlement Review Sheet

No.	Recipient	Advance Date	Amount (BDT)	Purpose	Scheduled Settlement	Actual Settlement	Days Lag	Settled Amount	Outstanding	Status

Aging Analysis:

Aging Period	Number of Advances	Amount (BDT)
0-30 days		
31-60 days		
61-90 days		
Over 90 days		
Total		

3.10.7 Annexure G: Fixed Asset Physical Verification Sheet

No.	Asset ID	Description	Recorded Location	Actual Location	Recorded Qty	Actual Qty	Condition	Tag Present?	Remarks

3.10.8 Annexure H: Fixed Asset Compliance Checklist

Check Item	Yes / No / N/A	Remarks
------------	----------------	---------

Is there a documented Fixed Asset Management Policy?

Is a Fixed Asset Register maintained and updated timely?

Check Item	Yes / No / N/A	Remarks
Does every asset have a unique ID/tag?		
Is physical verification conducted periodically (at least annually)?		
Are asset purchases properly approved?		
Are asset transfers documented and approved?		
Are asset disposals approved and proceeds recorded?		
Is depreciation calculated accurately and consistently?		

3.10.9 Annexure I: Payroll Audit Checklist

Check Item	Yes / No / N/A	Evidence Reference
Employee Records		
Are complete personnel files maintained for all employees?		
Does every employee have a valid appointment letter/contract?		
Are employee positions and salary grades formally documented?		
Payroll Calculation		
Is basic salary consistent with contract/appointment letter?		
Are allowances/benefits supported by policy and approval?		
Are overtime calculations accurate and properly approved?		

Check Item	Yes / No / N/A	Evidence Reference
------------	-------------------	-----------------------

Are salary changes supported by written approval?

Attendance Management

Are complete attendance records maintained?

Are attendance records reconciled with payroll payments?

Statutory Compliance

Is income tax correctly calculated and remitted?

Are VAT/other statutory deductions accurate?

Are statutory payments made to government authorities on time?

Internal Controls

Are payroll preparation, approval, and disbursement segregated?

Are salary payments made via bank transfer (avoiding cash)?

3.10.10Annexure J: Payroll Transaction Testing Worksheet

Employee ID	Name	Position	Monthly Salary (BDT)	Attendance Check	Contract Check	Approval Check	Statutory Deduction Check	Conclusion

3.10.11 Annexure K: Fraud Investigation Worksheet

Case No.	Allegation Description	Area Involved	Preliminary Risk	Investigation Performed	Evidence Collected	Financial Impact (BDT)	Individuals Involved	Status

3.10.12 Annexure L: Donor Compliance Review Matrix

Donor / Project	Agreement No.	Project Period	Approved Budget (BDT)	Actual Expenditure (BDT)	Budget Variance	Key Compliance Requirements	Compliance Status	Non-Compliance Description	Financial Impact (BDT)

3.10.13 Annexure M: Sister Concern Specific Review Sheet

Sister Concern Name	Review Area	Check Item	Compliance Status	Findings / Remarks
Holy Family Red Crescent Medical College Hospital	Recruitment	All hires supported by formal vacancy announcements?		
	Procurement	Medical equipment and pharmaceutical purchases compliant?		

Sister Concern Name	Review Area	Check Item	Compliance Status	Findings / Remarks
	Cash Management	Fee collections deposited promptly?		
	Yearly Increment	Increments supported by policy and approvals?		
	VAT/TDS	Statutory deductions accurately calculated and timely remitted?		
Holy Family Red Crescent Medical College	(Same applicable items)			
Holy Family Red Crescent Nursing College	(Same applicable items)			
Blood Program of BDRCS	(Same applicable items)			

3.10.14 Annexure N: Audit Findings Summary

Finding No.	ToR Section	Finding Description	Risk Level (H/M/L)	Financial Impact (BDT)	Recommendation	Management Response	Status

3.10.15 Annexure O: Audit Workpaper Index
